

Ducati Superbike 999 2003-2007 (EST-01)

Secure the bike on a stand.

Remove the side covers.

Remove the seat and the fuel tank.

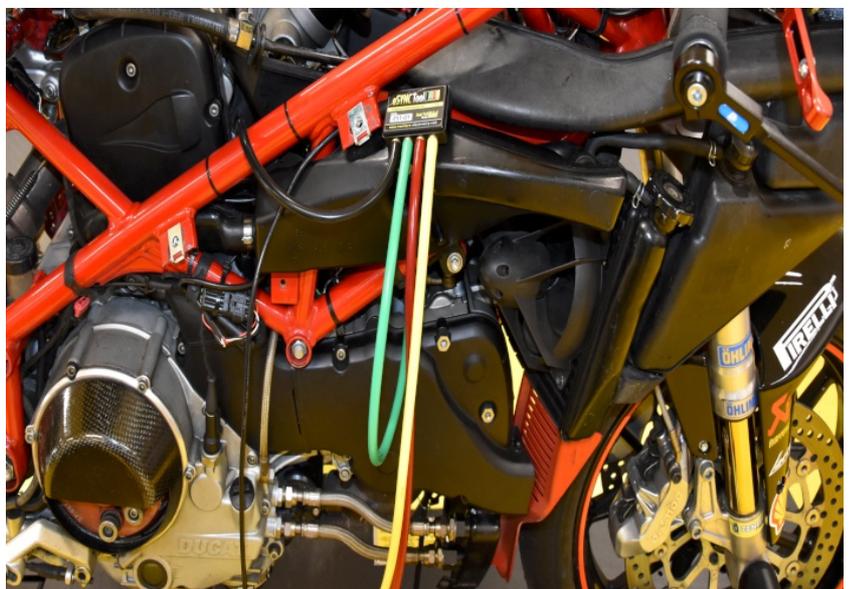

Remove the top of the airbox.

Connect the vacuum hoses to the vacuum ports of the cylinders.

Connect the USB plug to the computer.

(Use the additional screws.)

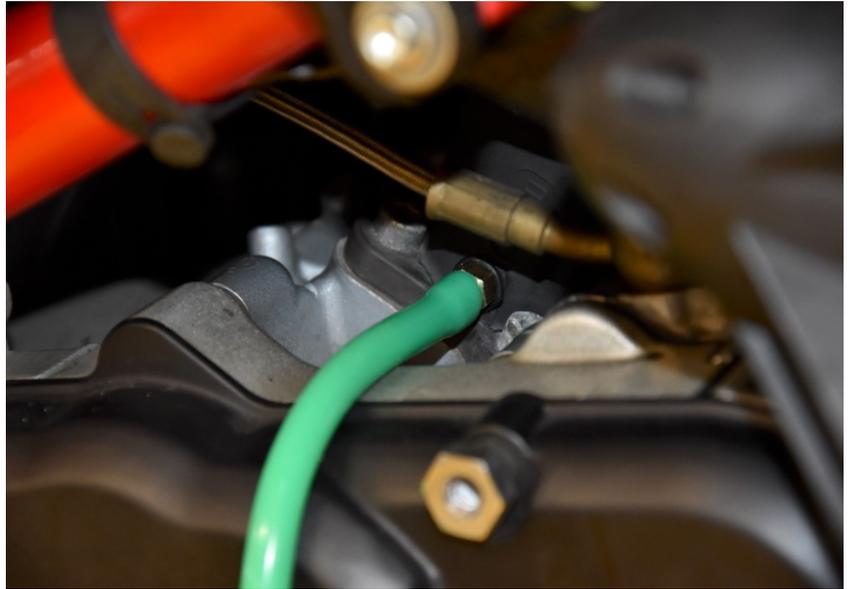

Ducati Superbike 999 2003-2007 (EST-01)

Black hose to the first cylinder.

Green hose to the second cylinder.

(Leave free the other two hose.)

Put back the fuel tank and start the engine.

Adjust the cylinders to get them in sync with the Reference (first) cylinder.

When the cylinders are in sync the columns are at the same height.
